

# Cloud Native Development and DevOps

Jessica Tibaldi

Daniele Antonio Maggio

Giancarlo Sudano

- 10.00 Intro
- 10.05 DevOps
- 10.20 Azure Container Strategy
- 11.00 A Reference Architecture
- 11.05 Infra as Code
- 11.45 Inner Loop
- 12.45 Break
- 14.00 Outer Loop 60 min
- 15.00 OCP, Pivotal on Azure
- 15.15 Break
- 15.30 Azure Monitor
- 15.50 Closing

# DevOps

# What is Time To Lead?

<https://www.agilealliance.org/glossary/lead-time/>

# What is Time To Lead?

# What is Time To Lead?

Every 6 to 24 months

Every 3  
weeks

Several times per day

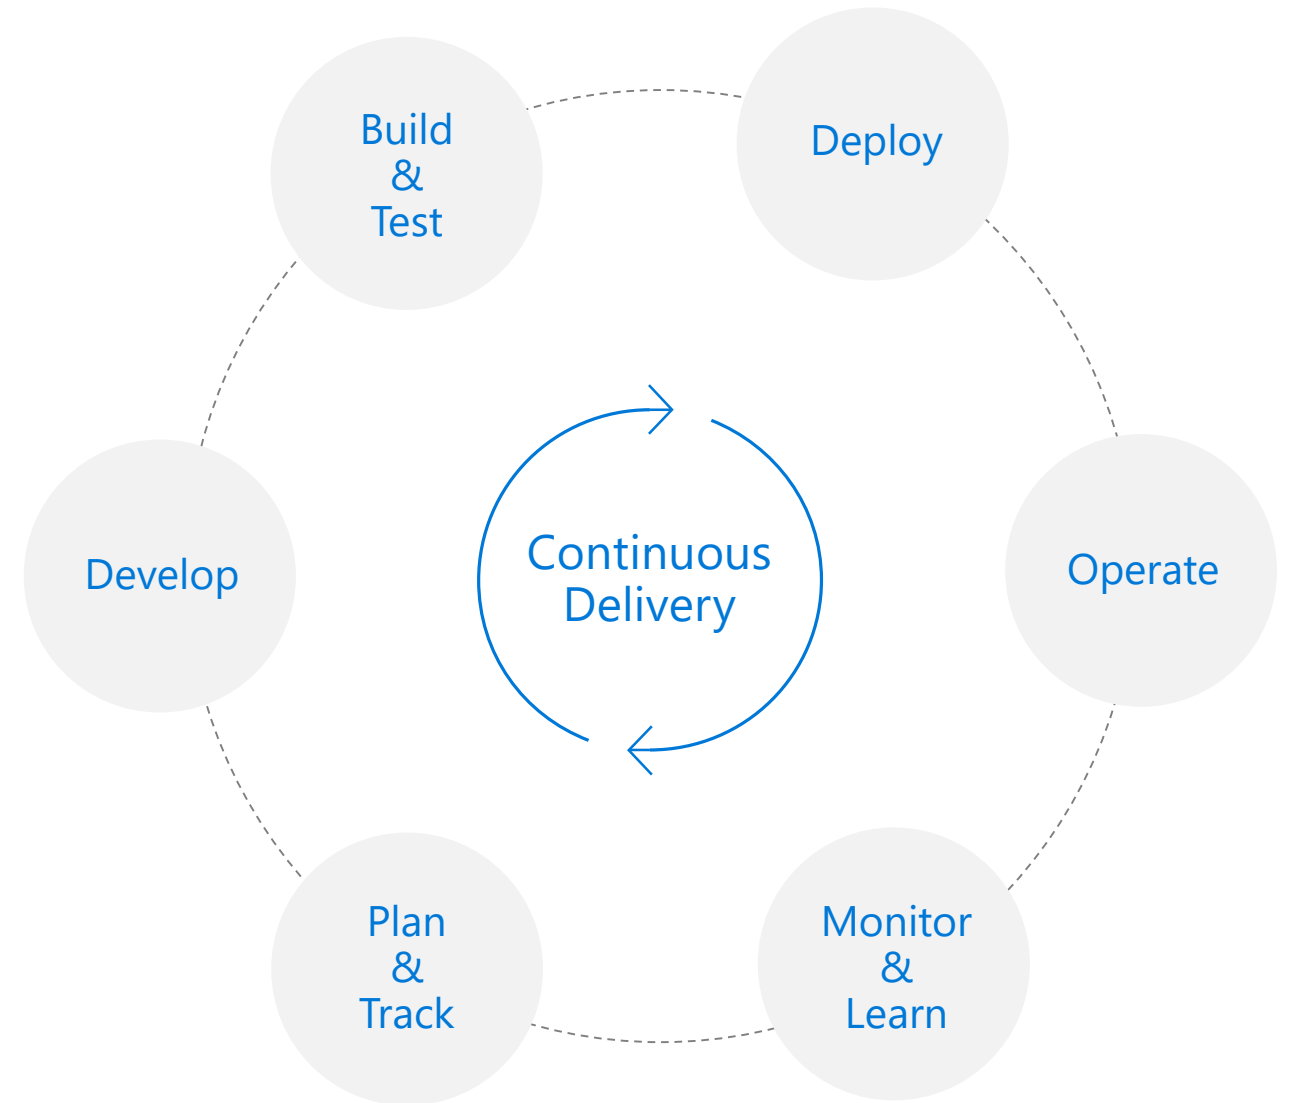

# What is DevOps?

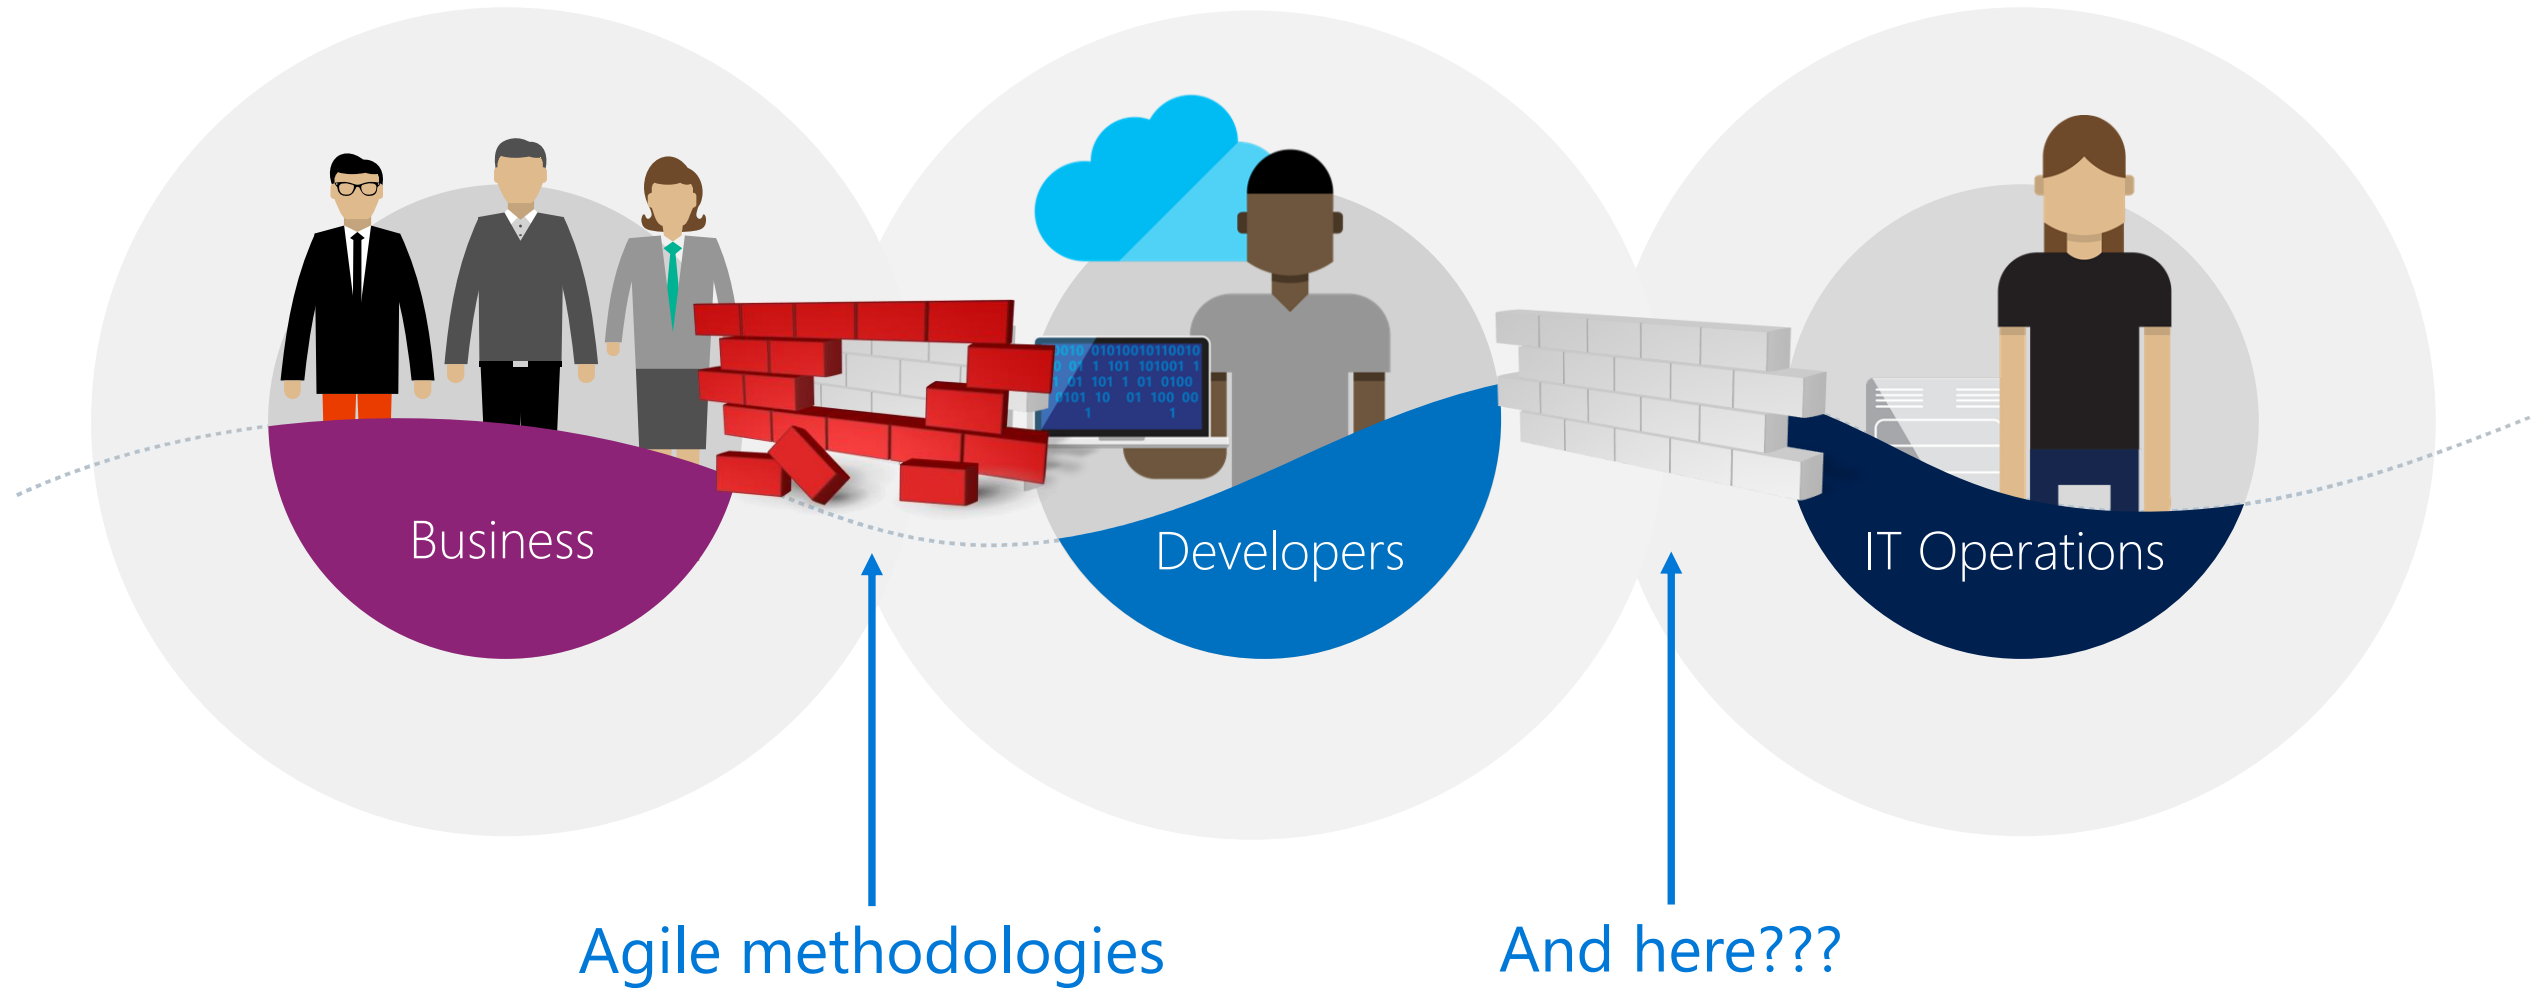

People. Process. Products.

DevOps is a set of **practices** to decrease **time to lead** and keep/improve **quality**.

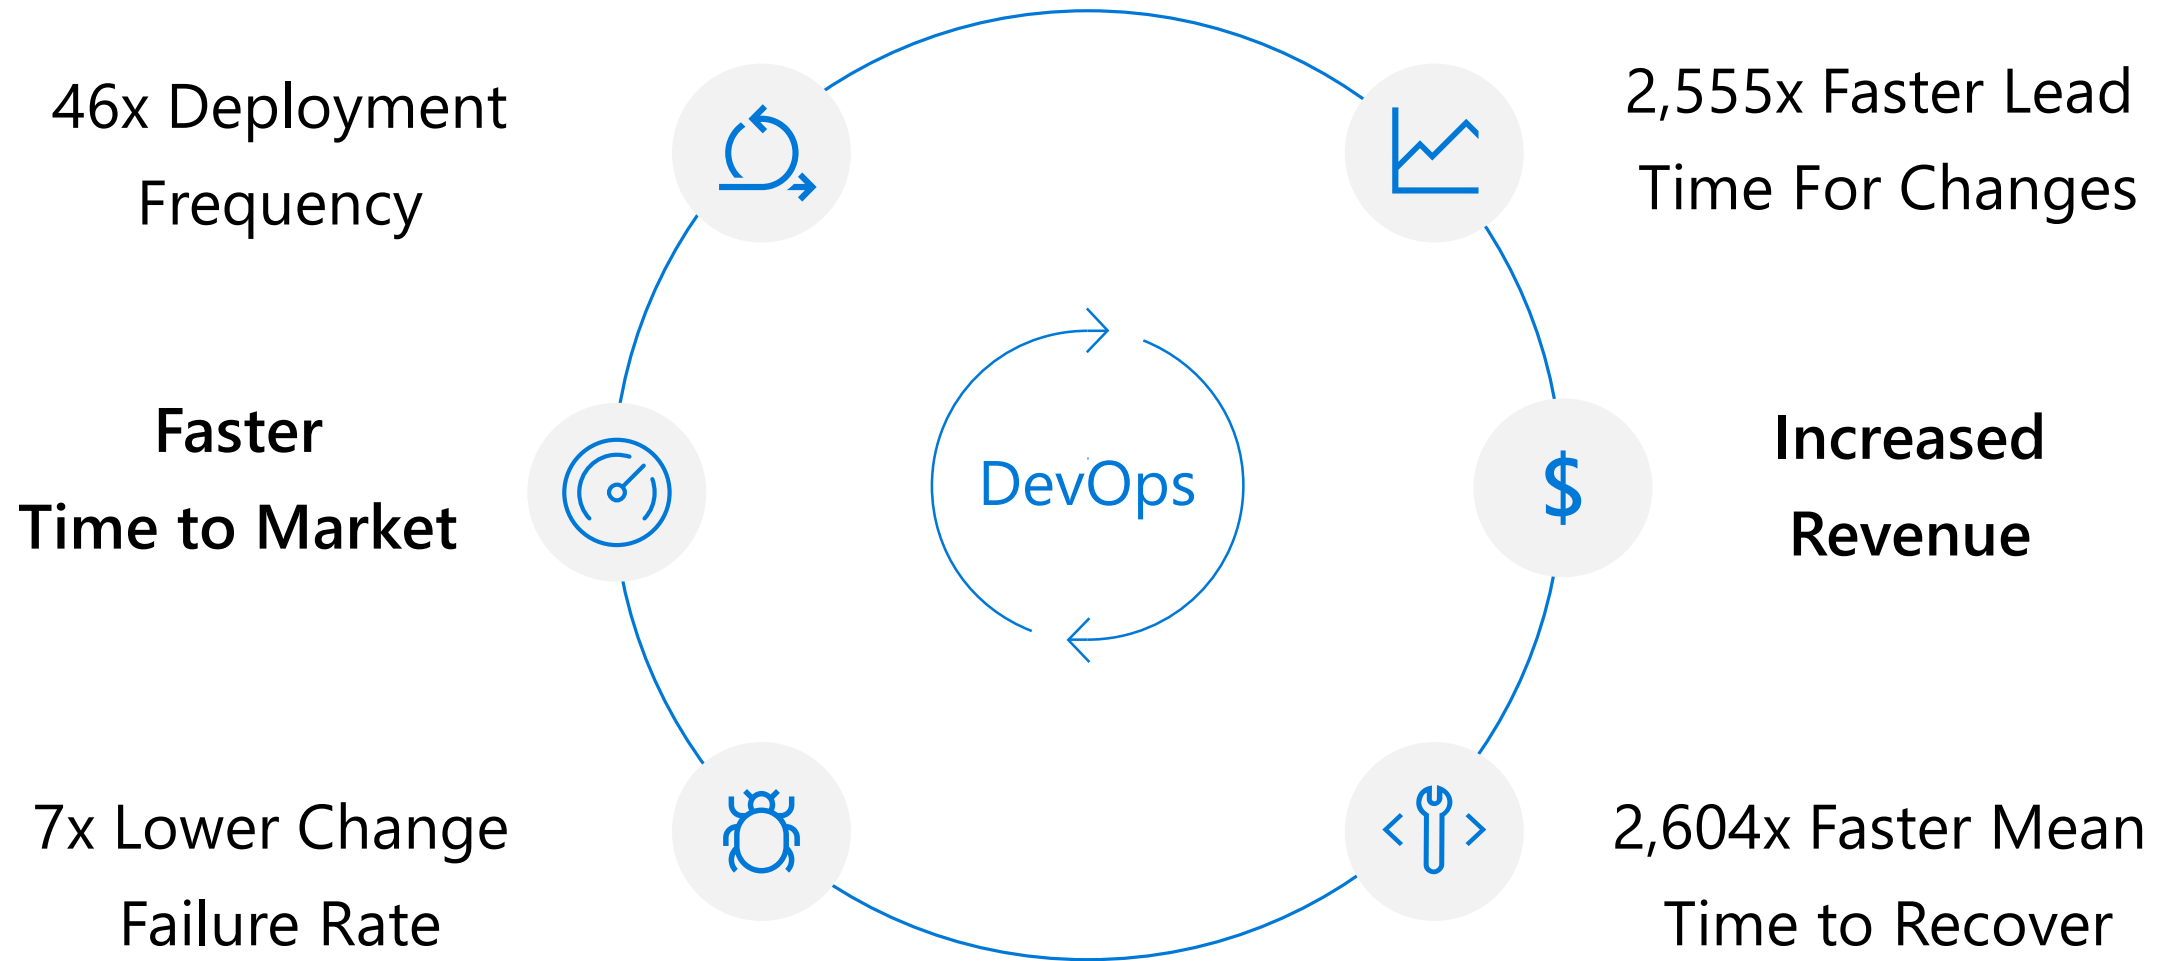

# Value Delivering Challenges

# High Performance DevOps Companies Achieve...

# Architecture

# How Microsoft can help

**Microsoft Azure** is a powerful and flexible foundation for past, present, and future apps – easily build, manage, and deploy any application and any stack on a massive, global network using your favorite tools and frameworks.

## Flexible

---

Choice of IaaS, PaaS, public cloud or hybrid.

Mirror or modernize app infrastructure with VMs, containers, microservices or serverless.

Supports all stages of the app modernization journey – from lift-and-shift to Cloud-Native.

## Powerful

---

Instantly improve the performance, scalability and resiliency of your apps by moving them to the cloud.

Increase business agility with Cloud-Native capabilities and built-in DevOps for continuous innovation.

## Open

---

Bring your stack, we bring a cloud that runs any app, on any platform, and any language.

Build applications using the language and tools of your choice - Azure supports what you already use and love so you can get up and running fast – just bring code.

# Cloud Native Landspace

## CNCF Cloud Native Interactive Landscape

Reset Filters

CNCF's Cloud Native Trail Map (png, pdf) provides a good introduction. The cloud native landscape (png, pdf) and serverless landscape (png, pdf) are dynamically generated below. Please open a pull request to correct any issues. Greyed logos are not open source. Last Updated: 2018-10-31 01:57:15Z

You are viewing 590 cards with a total of 1,251,988 stars, market cap of \$6.09T and funding of \$17.1B.
